

The Solar Food Dryer: How to Make and Use Your Own Low-Cost, High Performance, Sun-Powered Food Dehydrator

The Solar Food Dryer describes how to use solar energy to dry your food instead of costly electricity. With your own solar-powered food dryer, you can quickly and efficiently dry all your extra garden veggies, fruits, and herbs to preserve their goodness all year long with free sunshine! Applicable to a wide geography wherever gardens grow, this well-illustrated book includes: Complete step-by-step plans for building a high-performance, low-cost solar food dryer from readily available materials. Solar energy design concepts. Food drying tips and recipes. Resources, references, solar charts, and more. Eben Fodor is an organic gardener with a background in solar energy and engineering. He works as a community planning consultant in Eugene, Oregon.
